

Hello Phyllis,

I am Kelsie the 24 year old who had a bilateral mastectomy to prevent breast cancer. I wanted to thank you again for helping me find pain relief in my chest and back. I have been in pain for the past four years resulting in taking prescription and over the counter pain meds on and off during this time along with heat and ice packs. Swing Lube has been a miracle to find.

I want to help other cancer patients and previvors find relief. METAvivor Research is putting on Runway for Research fashion show. There will be 250 goodie bags filled with beauty products and other goodies. I was wondering if you would want to donate samples of Swing Lube? We could put your business card along with my own words on how it has helped my pain tremendously. You do not have to donate 250 samples as they have stated that the goodie bags vary in what's in them.

Thank you again for everything and it was such a blessing meeting you.

-Kelsie Beeler
